YFC FABRICATION & CONTRACTOR

# YOUR TRUSTED PARTNER
## IN ASRS & AUTOMATION
## SYSTEM INSTALLATION

# ABOUT US

Established in 2010, Yadav Fabrication & Contractor is a professionally managed industrial contracting company & a trusted partner for turnkey ASRS and automation system installation across India. With 16+ years of hands on experience, we deliver reliable, end-to-end solutions backed by strong technical expertise, skilled manpower & disciplined project execution.

We have extensive hands-on experience working with reputed national and international OEMs and have successfully executed multiple ASRS System and Automation System projects across India.

Our Pan-India execution experience has equipped us with the expertise and resources to effectively manage projects of varying scale and complexity while maintaining stringent standards of safety, quality, timely execution, and customer requirements.

# OUR MISSION - VISION

## OUR VISION

To be a trusted Pan-India partner in ASRS, warehouse automation, and industrial installation, recognized for quality, reliability, and technical excellence.

## OUR CORE VALUES

We believe in Safety, Quality, Integrity, Teamwork, Customer Satisfaction, and Timely Delivery, while continuously improving our skills and services.

## OUR MISSION

To deliver safe, efficient, and timely installation solutions through skilled manpower, technical expertise, disciplined execution, and strong customer and OEM collaboration.

# WHY CHOOSE US

### 16+ YEARS OF EXPERIENCE

With over 16 years of industrial experience, we bring proven expertise in handling large-scale, complex installation, erection, and automation projects.

### FINANCIAL & OPERATIONAL RESILIENCE

Ensuring uninterrupted project progress through robust financial strength, efficient operations, and reliable resource management.

### SAFETY-DRIVEN EXECUTION

We follow disciplined safety practices, especially while working in high-risk and challenging industrial environments.

### SKILLED TECHNICAL WORKFORCE

Our experienced manpower provides strong technical support, installation expertise, and practical troubleshooting capabilities.

### PAN-INDIA MOBILIZATION

Our flexible workforce and resources enable quick mobilization and efficient project execution across India.

### RELIABLE PROJECT SUPPORT

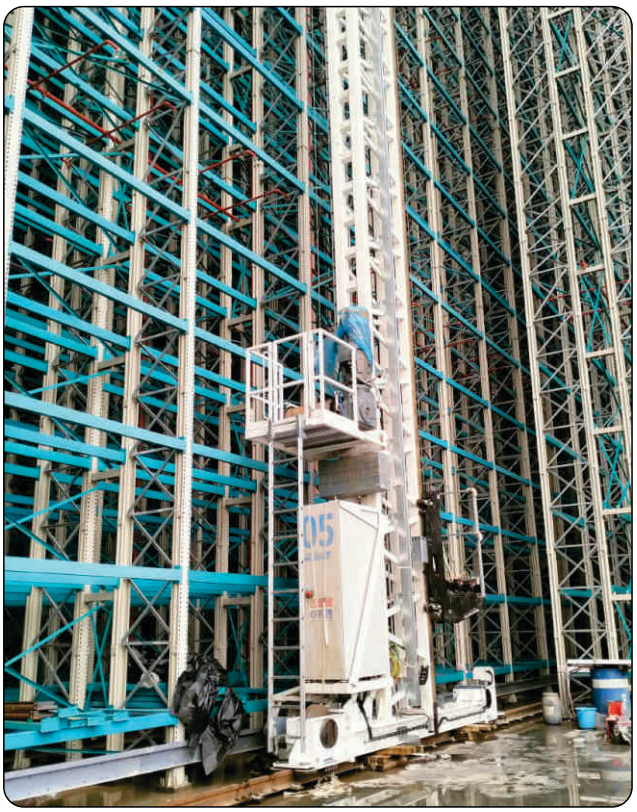

We maintain strong operational capabilities to support continuous project progress and meet demanding project schedules.

### QUALITY & COMPLIANCE

We focus on quality workmanship, regulatory requirements, accurate documentation, and adherence to project specifications.

### EFFICIENT PARTS & TECHNICAL SUPPORT

Our technical understanding helps identify required components and support timely sourcing, reducing delays and equipment downtime.

# OUR SERVICES

## ASRS Racking Installation

We provide complete ASRS racking and material-handling system installation and erection services, including high-height, heavy-duty, and complex systems across India. Our skilled team ensures safe, precise, and efficient installation with accurate alignment for reliable system performance.

We have expertise in installing various ASRS racking systems, including Bin ASRS, Narrow Aisle ASRS, Pallet ASRS, Single Deep & Multi Deep ASRS, Stand Alone ASRS, Metal Bundle ASRS, and Multi Fork ASRS for metal sheet storage, along with FIFO and LIFO-based ASRS configurations.

## Stacker Crane Installation

We provide specialized stacker crane installation and erection services for ASRS system facilities, including rail installation, mast assembly & erection, alignment, and safety components. Our experienced teams ensure safe, precise, and efficient execution for complex and large-scale projects.

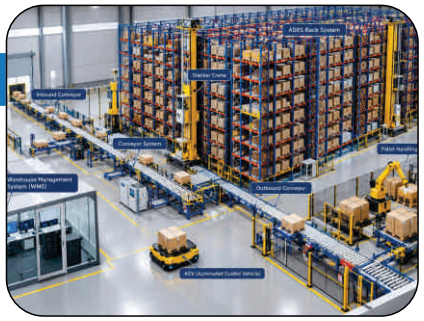

## Conveyors Installation

We provide professional conveyor installation and erection services for warehouses, ASRS system facilities, manufacturing plants and logistics centers. Our skilled team handles mechanical and electrical installation from assembly to commissioning, ensuring safe, precise, and efficient project execution.

We provide installation and erection services for various conveyor systems like, Pallet Conveyors Bin Conveyors, Belt Conveyors, Roller Conveyors, Chain Conveyors, Overhead Conveyors, Airport Baggage Conveyors, Tote Conveyor, CBS System, ARB Conveyors, Chutes, etc.

## Automation System Installation

We provide professional automation system installation services, covering equipment assembly, positioning, alignment, electrical installations, integration and commissioning. Our experienced team ensures safe, precise, and efficient execution in coordination with OEMs, engineers, and customer project teams.

## Electrical Installation

We provide comprehensive industrial electrical installation, wiring, equipment connection, cable management, and electrical support services for ASRS systems, automated material-handling projects, warehouses, manufacturing plants, and logistics facilities.

We undertake electrical installation activities from cable tray and support installation to cable laying, routing, equipment connections, panel installation, field wiring, control wiring, sensors, motors, and associated electrical works.

## Industrial Machinery Installation

We provide professional industrial machinery installation and erection services for manufacturing, warehouse, logistics, and industrial applications. Our experienced team handles equipment such as Stacker Cranes, RGV, AGV, Shuttle Systems, Production - Packing Machines and other specialized material-handling systems.

## Industrial Lift Installation

We provide professional industrial lift installation and erection services, including Auto Pallet, Scissor, Manual, Hydraulic, and Vertical Lifts. Our experienced team ensures safe, precise, and efficient installation with proper alignment, leveling, and system integration.

## Industrial Crane Installation

We provide professional industrial crane installation and erection services, covering structural assembly, erection, alignment and commissioning support. Our skilled team handles heavy-duty, complex, and large-scale projects with a focus on safe, precise, and reliable execution. We are experts in installation of industrial cranes such as Stacker Crane, EOT Crane, Gantry Crane, Jib Crane, Monorail Crane and much more.

## Technical Assistance & Manpower Supply

We provide skilled manpower and technical assistance for industrial installation, maintenance, automation, machinery relocation & material-handling projects. With extensive experience in ASRS systems, stacker cranes, conveyors, industrial machinery, lifts, RGV, electrical installation, heavy fabrication and equipment relocation

## Clean Room & Machinery Installation

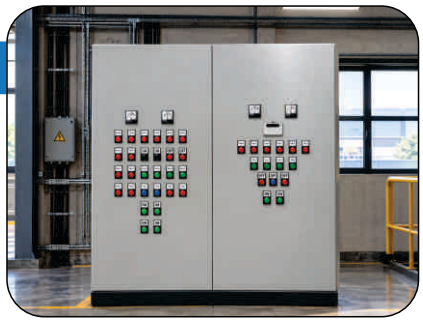

We provide specialized clean room, machinery installation and erection services for clean room and controlled environments, including pharmaceutical, battery, and semiconductor facilities. Our team ensures precise positioning, alignment, cleanliness, safety, and contamination control throughout installation and commissioning.

## Semiconductor Material Handling System Installation

We are developing capabilities to support the installation and execution of advanced semiconductor material handling systems, with a strong emphasis on precision, safety, quality, cleanroom requirements, technical compliance, and stringent project schedules. Our objective is to leverage our proven industrial installation expertise to support the evolving requirements of advanced semiconductor manufacturing and technology-driven facilities

## Automation & Electrical Component Supply

We take care of electrical and automation components based on customer requirements. We can customize and supply various parts to support industrial maintenance, repair, replacement, and installation requirements. Our supply includes but not limited to Distribution Panels,Transformers,Cable Trays,Power Cables,Special Cables,Junction Boxes,Conduits,Fabricated Pallets,Rails,Structural Steel.

## PEB Structure Erection & Sheeting Installation

We provide professional PEB erection and sheeting installation services for industrial buildings, factories, warehouses, and logistics facilities. Our skilled team handles structural erection, roofing, wall sheeting, flashing, and accessories with a focus on safety, accuracy, and timely execution.

## Heavy Fabrication & Erection

We provide heavy fabrication, erection, and installation services for industrial plants, warehouses, manufacturing, logistics, and material-handling projects. Our skilled team handles structural fabrication, assembly, welding, bolting, positioning, and alignment with a focus on accuracy, safety, and efficient execution.

## Annual Maintenance contract (AMC) & Repair jobs

We provide comprehensive AMC services & repair job services for ASRS system, conveyors, stacker cranes,RGVs, industrial lifts, industrial machinery, and mechanical & electrical systems. Our planned and responsive maintenance support helps ensure equipment reliability, safety, performance, and uninterrupted operations.

## Dismantling & Relocation Of Asrs System And Industrial Facility

We provide safe and professional ASRS system and industrial facility relocation services across India, covering dismantling, shifting, transportation, reinstallation, and alignment.Our skilled team ensures careful planning and controlled execution to minimize downtime and safely relocate automated storage systems and heavy industrial equipment.
